PARTICIPANTS: See List Attached

DATE AND TIME: November 18, 1982, 10:00 a.m.

PLACE: Deputy Secretary's Conference Room 7219, Department of State

SUBJECT: SIG Meeting on Transfer of Strategic Technology,  
November 18

SUMMARY OF CONCLUSIONS

Chairman Schneider opened the meeting by summarizing the progress the SIG had made on a variety of issues, including the commissioning of intelligence studies on technology leakage problems in several Western nations, and the development of an integrated bilateral approach to our COCOM allies. Moving to the substantive agenda, Chairman Schneider reported on the SIG's progress concerning the visa issue and his meeting with Frank Press on the same subject.

This was followed by brief status reports by the Chairman on the SIG's review of extradition treaties and the progress of the Japan study. The Chairman then opened a discussion on digital switching policy, notably concerning the MT-20 and ITT sales.

Defense provided an Interim Progress Report handout on interagency status of the FORDTIS system. Commerce provided interim progress report handouts on preparation for the upcoming COCOM enforcement bilaterals and their efforts to harmonize COCOM licensing procedures.

Mr. McCormack then briefed the SIG on the latest progress in the COCOM list review negotiations. He noted that the Allies have been cooperative in general and that we were near success regarding our proposals covering silicon composites and spacecraft. Difficulties were being encountered on our computer and large floating drydock proposals.

In the category of new business, Chairman Schneider spoke of the need to generate a public awareness campaign concerning technology transfer. FBI and CIA noted the success they have had in this area. Mr. Brady gave a report on Administration efforts to revise the Export Administration Act. Commerce also briefed the SIG with its progress in reviewing EAA technical data regulations and their interface with the Military Critical Technologies List.

Chairman Schneider raised the recent letter sent by Senator Jepsen to various agencies requesting information on export control policy and technology transfer issues. The Chairman noted that the NSC had requested that the SIG coordinate the Administration's response. Chairman Schneider proposed that State and Commerce co-chair an interagency task force to prepare the Administration's response for the SIG.

Finally the NSA briefed the SIG on Soviet penetration of Western data bases. They mentioned the availability of their weekly International Technology Transfer Summary which is useful for policymakers in this area.

ACTION ASSIGNMENTS

1. The Visa Controls Drafting Unit is expected to produce a draft options paper for the December SIG.
2. State will lead an interagency effort to produce a follow-up policy plan to the Japan Study.
3. Commerce will provide an updated progress report on its preparation for COCOM enforcement bilaterals for the December SIG.
4. State and Commerce will co-chair an interagency task force to prepare the Administration's response to Senator Jepsen's letter on export control policy and technology transfer issues.
5. The SIG's Committee on Special Projects was tasked to produce a draft plan of action to increase public awareness of the technology transfer problem.
